

Packing List Envelopes and Mailers

Packing List Envelopes

Protect your shipping documents with packing list envelopes. They have a clear pressure sensitive backing that attaches securely to almost any material. The waterproof plastic envelopes with slit backs are easy to close and provide tamper proof security. Eliminate the need for address labels and protect your packing lists.

DESCRIPTION	SIZE	CTN CT	ITEM CODE

Backloading	4½" x 5½"	1000	ADM-51-NP
Backloading	4½" x 6"	1000	ADM-F-2-NP
Backloading	5¼" x 7½"	1000	ADM-26-NP
Backloading	5½" x 10"	1000	ADM-C-16-NP
Backloading	7" x 10"	1000	ADM-710-NP
Toploading	7½" x 5½"	1000	ADM-P19-NP
Backloading	9½" x 12"	500	ADM-912-NP
Toploading, Blank, Perforated	10¾" x 6¾"	1000	ADM-C-20

BACKLOADING: Loads from back. Slit on short side and heat sealed on all four sides.

TOPLOADING: Loads from back. Slit on long side and heat sealed on all four sides. Both options offer the optimum in weather and tamper resistance. When properly applied, the contents cannot be removed without cutting or tearing open the envelope.

Padded Mailing Envelopes

Features	Advantages	Benefits
Made from 100% recycled kraft	Ecologically friendly	Reduces deforestation and landfill usage
3-sided protection	½" fins on 3 sides of bag help absorb shock	Better protects enclosed product
Fully laminated kraft/bubble combination	Stronger construction provides rugged durability	Increased bag strength
High slip lining	Allows easier product insertion and extraction	Increases productivity
Hot-melt self-seal closure	Tamper-evident	Content security
⅓ the weight of macerated newspaper shippers	Light weight	Reduced postage costs
Bubble lining	Cleaner than macerated paper	No mess to clean up

Padded Mailing Envelopes

Bubble mailers offer lightweight, low cost cushioned shipping protection in a strong puncture resistant mailing bag. Our padded envelopes are self sealing and made from recycled golden kraft paper with a ⅜" bubble lining.

Lamibags

Lamibags are pouches made from Lamifoam, a laminated packaging material that combines foam with printed or plain polyethylene film to create a strong, lightweight composite sheet. Lamibags are thinner, denser, and stronger than other foam pouches.
