

DID YOU KNOW? There are a wide variety of stock poly bags available to be shipped to you within 24 hours. Call your Carlson Systems Account Manager to determine the perfect poly bags for your application.

Protect your products with poly bags and sheeting that meet your applications' specifications

Poly Bags are available on rolls or individually cut to fit your application needs. Typical uses include:

- Mattress bags
- Bin liners
- Box liners
- Pallet covers
- Cargo bags
- Truck liners

Pallet covers are available in either shrink or standard types and custom printing is also available.

Gaylord liners, available in .0006 to .010 gauge, are custom made to your specifications to fit any size gaylord box for clean material protection.

Pallet Bags

Recommended for large machinery, heavy irregular loads and outdoor protection.

- Slip gusseted bag over pallet and heat shrink
- Heavy duty moisture and dirt protection
- Perforated rolls for easy tear-off

Pallet Edge Protection

Paperboard Edge Protectors

Protect your products during shipping, handling and storage.

Paperboard edge protectors are a simple product that solves a wide range of packaging problems. Made by laminating recycled paperboard into a rigid right-angle shape, they provide edge protection as well as load containment, stabilization and strengthening. Plus, they easily combine with other materials to create custom packaging solutions.

Paperboard edge protectors are available in a wide range of sizes, configurations and options that meet a wide spectrum of needs. Some paperboard edge protectors can also be customized with print options including CautionBoard, IdentiBoard, CuttingBoard and LibertyLine, or you can custom print with your logo, promotional tagline, handling instructions, product code or other information.

Many additional sizes are available to fit your shipping needs!

Paperboard Strap Protectors

A cost-effective strap protector

A shorter version of the paperboard edge protectors, they provide protection from strapping damage on palletized loads or stacked products. This practical, economical strap protector is made to a high degree of precision to ensure the uniform shape and sizing required for automated application systems.

Paperboard strap protectors are available in lengths from 2½ to 12 inches (6.35 to 30.48 cm).

Plastic Strap Guards

Protects steel strap from damaging boxes and crates by buffering the space between the strap and the edge of the box.
