

Poly Bags

Polyethylene bags are designed to handle a wide variety of packaging needs: they can hold everything from small parts to all types of food items and can be heat sealed to provide security and/or retain freshness.

- Bags are from seamless tubing and bottom sealed for extra strength; no side or slit seals
- Dimensions represent the interior usable portion of the bag
- Poly bags are available flat or gusseted, individually cut or on a roll
- Bags with white block are also available

Poly Tubing

This tubing is made from 100% virgin low density polyethylene which meets LP-378 requirements. Because it is from virgin polyethylene it meets FDA requirements and can be used for food packaging and service. Tubing can be heat sealed, stapled or taped at either one or both ends. The continuous tubing is wound either gusseted or flat on 3" cores.

There are over 150 sizes of poly tubing available, sizes from 2 mil to 6 mil, and from 2" to 48" wide. Listed are some of our most popular sizes:
